

Huggable Images®

Safety Training Dolls

- Designed specifically for Child Passenger Safety training.
- Cost effective solution for Child Passenger Safety training.
- For easy transporting the largest doll weighs less than 10 lbs.
- Firm torso that doesn't collapse during seat belt demonstration.
- A lanyard pouch with a clear window is attached so age, size and weight of child can be displayed for specific training.
- Varied skin tones to represent diverse ethnicities.
- Can be full customized for your specific need.
- For easy transporting and storage each doll comes in a drawstring bag.

According to NHTSA, 3 out of 4 kids are not as secure in the car as they should be because their car seats are not being used correctly.

Having the Proper training tool to demonstrate how children should be properly secured in a safety seat can reduce the risk of death and injury and increase the number of children's lives saved.

Huggable Images® recognizes the impact CPS Training has on the safety of our children and we are committed to resolve this training issue.

Each doll represents the following age, size & weight

8 Year Old	4'9" tall	80 lbs.
6 Year Old	48" tall	46 lbs.
3 Year Old	38" tall	30 lbs.
16 Mo. Old	31" tall	20 lbs.
Infant	17" tall	7 lbs.
Premie	17" tall	4 lbs.

The 8 yr. old, 6 yr. old, 3 yr. old and 16 month old have a flexible bend in the knees for a proper safety seat fit and for multiple presentation uses.

Safety Training Dolls

Huggable Images® has designed these safety training dolls based on the median size of the following ages to teach accurate fit and proper installation of children in safety seats.
